

RightMarket Design Service

The following steps apply to artwork that will be used on RightMarket builds.

- **CLEAR BRIEF FIRST**
You'll share your full brief and **all required assets** (logos, fonts, images, copy, visuals for reference).
- **ONE PROOF SUPPLIED**
We'll create and send you an initial proof for review.
- **ONE ROUND OF AMENDS**
A **single round of amends** is included at **no cost**.
- **SIGN-OFF**
Once approved, the **design is locked** so we can move straight to build.
- **POST-BUILD CHANGES**
Design changes after build are **chargeable**.

When additional charges apply (£95 per instance)

To keep projects fair and consistent, a £95 fee may apply if a request falls outside of the included process, such as:

- When new assets (logos, images or example visuals) are provided after the design work has begun.
- When more than one round of amends is requested.
- When design changes are requested after the build stage.
